Concerning Women.

A pretty incident of the biennial convention of the General Federation of Women's clubs was the presentation of a gavel to Mrs. Pennypacker, the president, by Mrs. H. B. Fall of Texas. The gavel was made of the pecan, a native of the state of Texas, from which Mrs. Pennypacker was elected. The symbols on the gavel are Love, Liberty, Charity and Unity.

The Kind You Have Always Bought

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

Interstate commerce goods made by children under 14 years of age or by children between 14 and 16 working more than eight hours a day. Lewis W. Parker, arguing against the bill, said that the child labor question should be settled by the states, not by the federal government.

Needlework Notes.

Few American patchwork designs show large pink tulips on a neutral ground.

To be strictly fashionable silk or lisle gloves should be embroidered on the back of the hand and at the gauntlet end.

Loosely woven ramie linens are much used just now as a background for designs carried out in soft cottons. Outlining, French knots, some solid work and a few eyelets are thrown into relief by rows of evenly spaced darning.

The open air girl is not content merely to have a colored crepe de chine handkerchief tucked into the breast pocket of her knitted or fleecy golf coat, but she must have a bow at her throat to match it exactly in color. These sets are made in the prettiest shades of blue, mauve and canary.

Ordinary plaid dish toweling makes durable and cool looking covers for piazza pillows. Take for instance, a fair sized check in red and white and embroider all the white checks with red lazy-daisies in silk or the red squares with white silk. A ruffle of the toweling bordered with red tape completes a good looking cover.

Stenciled designs are eminently fitted for summer draperies and cushion covers. Suitable hot weather patterns are sought by the worker who has an eye for the fitness of things. Sea shells with trailing seaweed scrolls and conventional fish with ornamental tails are among the clever ideas successfully worked out by one young artist.

Street Closed for Play.

NEW YORK, July 28.—An innovation in methods of providing play space for children in the congested squares was put into practice when one block length of a street in the East End was closed to traffic for three hours to serve as a playground. It will be closed from 2 to 6 each afternoon during the summer for this purpose, it was announced.

IMMENSE GUN HAS RANGE OF 35 MILES

WATERVLIET, N. Y., July 28.—Repairs to the monster 16-inch gun, which will be the Colossus of the Panama canal fortifications, are nearing completion today in the local arsenal. Some months ago the cannon, which is the biggest specimen of ordnance in the world, was turned out at the Watervliet factory. Subsequent tests at the Sandy Hook proving station showed that its projectile could pierce 12-inch armor, set 11 miles away from the firing point.

The tremendous power of the gun, destined to guard the Pacific entrance to the canal, are not easily appreciated. The cannon itself is fifty feet in length and weighs 142 tons. Its projectile, over 6 feet long, tips the scales at 2400 pounds. More than a quarter of a ton of powder is needed to discharge this destructive bullet. Although capable of carrying at least 35 miles, this iron-and-steel-boned agent of death can be "accurately bull's eyed" at 22 to 23 miles.

Visitor Slain as Burglar. AKRON, O., July 28.—Thomas Wolf, 45, a well to do business man, was shot and killed at the home of his son-in-law, Fred Brown, when he was mistaken for a burglar by Anthony Olchefske, Brown's neighbor. Olchefske knew the Brown family was away from home and when he saw Wolf leaving the house he opened fire. The first shot pierced Wolf's heart. Wolf rolled down the steps to Olchefske's feet. The slayer surrendered.

Get 43,400,600 Lbs. of Sugar. PHILADELPHIA, Pa., July 28.—A total of 43,400,600 pounds of sugar, the greatest amount ever received here in one day, arrived at this port on three vessels, one from Hawaii and two from Cuba. More than half of the total quantity was received on the Hawaiian vessel.
